The notices stated that customers should select a different service provider to avoid an interruption of service, and noted that other service providers are listed in the customer's local telephone directory. The notices also provided a telephone number that customers could use to reach the company for assistance with the transition. An example of one of Applicant's customer notices is attached as Exhibit 1.

6. Whether the carrier is considered dominant or non-dominant with respect to the service being discontinued, reduced, or impaired: Applicant is considered non-dominant with respect to the discontinued service.
